

To Whom It May Concern:

I am appalled that the National Association of Broadcasters (NAB) is trying to limit my access to weather and traffic on my XM receivers. I pay for two subscriptions a month to XM, and traffic and weather is one of the reasons I have two receivers one at home and one for the car. I was able to find out exactly why I was stuck in traffic one night because of XM traffic Pittsburgh. I had tried the local radio stations, but all that was on was music or commercials. I wanted to know what was going on and I wanted to know immediately. I switched to XM Pittsburgh and within a minute I found out that there was a large accident that had shut down all southbound traffic. Thanks to XM I knew what was going on and was able to spend the next hour listening to some great 80's music.

Please reject the NAB's petition 04-160.

Thank you,
